

Iteration 1:

Functionality introduced: task management

Iteration 2:

Problems faced: Filter works only for task names and not on created date.

Solution: Add a filter functionality for date also.

Functionality introduced: Scheduling and calendar

Iteration 3:

Problems faced: Calendar allows overlapping of tasks.

Solution: Add a condition to not allow two tasks to be scheduled on same time.

Functionality introduced: Resource management

Iteration 4:

Problems faced: Resource is not able to be accessed by two people simultaneously.

Solution: Remove the restriction to the access of the resource.

Functionality introduced: Risk Management

Iteration 5:

Problems faced: Sometimes risk management shutdown unexpectedly.

Solution: Identify the bug and rectify it.
